Subject: 'rail/spur"

This is the wrong place for the 'spur'. I'm sure that Phillips is well intentioned in this project but the decision should be based ONLY on the future SAFETY and WELL BEING of the citizens of SLO County. And it should be based on protecting not only its people but its assets, such as its reputation as an exceptional place to live, earn, and visit, all of which will be put at serious risk by the Rail Project. Thank you for considering these comments of a concerned citizen who resides in the area.
