Dear Mr. Wilson,

I live in Davis, CA, and adamantly oppose the oil train traffic going through my town. The seemingly endless trains cause noise and dirty air, threaten us with spills, death and destruction as in Lac Megantic, Quebec, slow down Amtrak, and generally reduce the quality of life. I understand that the rail companies care only for profits, and I consider them environmental enemies whom I intend to fight. Please do what you can to end this worsening nightmare. Thank you.
