Subject: PHILLIPS REIR: PUBLIC SAFETY CONCERNS

To: Mr. Murry Wilson, SLO County Planning Dept.

From the lead story in the 10/24/14 Sacramento Bee: "Mile-long oil trains that are expected to crisscross California daily in the coming years pose significant risks to residents of urban areas, including Sacramento, a new report concludes, CONTRADICTING earlier studies that Afound no major safety concerns. The report, issued by San Luis Obispo County officials, is based on a plan by PHILLIPS 66. The authors...came to the conclusion that the risks of oil spills and fires is real."

GAP-01

The Phillips 1.5 mile-long oil trains will travel through all five SLO County Supervisorial districts on a daily basis. Enough said...

I urge a "No Project" vote.

Paul Garratt, Nipomo

Subject: Fwd: Delivery Status Notification (Failure)

Murry - There were four emails sent by my family members using my email address to you today before your 4:30 PM deadline for the Phillips REIR. I received a delivery failure notice tonight for some of the email addresses of the Planning Commissioners but I am hoping that you received yours okay.
