Subject: Phillips Rail Spur

Dear Mr. Murry,

I am very concerned about the Phillips 66 Rail Spur. I have several issues with it and today I would like to comment on the noise problem. I live very close to Route 1 on the mesa and know the noise of 80 car trains will adversely affect our quality of life. I am very familiar with train noise from past living situations. The noise pollution from these trains is not needed as Phillips could continue buying crude from California sources. They just want a lower price from Canada. We will suffer the consequences.
