Subject: Recirculated Draft Environmental Impact Report Phillips 66
Company Rail Spur Extension Project (DRC-2012-00095)

To: Murry Wilson, County Environmental Coordinator San Luis Obispo County
Department of Planning and Building

RE; Recirculated Draft Environmental Impact Report Phillips 66 Company Rail Spur
Extension Project (DRC-2012-00095)

Some of my concerns are:

-The project will contribute significant new sources of air pollution to an area that is already in non-compliance with Federal and State Air Quality standards.

HOD-01

- The project will bring new sources of noise to a quiet, rural area that are inconsistent with residential land uses in adjacent areas.

HOD-02

- The project imposes new sources of potential hazards and hazardous materials to a primarily residential area.

HOD-03

-Our local first responders are not equipped to respond to a spill/fire/explosion at the SMR.

HOD-04
