Subject: Future Phillips 66 rail

Dear Mr Murry Wilson,

Upon hearing the facts of the future rail proposed by Phillips 66 I find it to be a huge impact upon the citizens of California in a way that would impact our health, safety, and our environment. Many rail cars rolling down our coastline, across bridges that are old and ill equip to handle the daily deliveries leads to possible accidents of great magnitude, which our Fire departments and emergency agency's are not equip to handel. Our air quality here in the Central Coast will be compromise which will in turn make it undesirable for the tourist industry for which we rely on greatly.

KLI-01

Please ponder these issues along with many others to deny Phillips 66 request. Thank you for your consideration in this matter.

Sincerely,

Irene Kliesch  
1135 Aidin Court, Nipomo, CA.
