Subject: More Oil Trains???

I am a home owner on the mesa on a cliff (Bluff Pointe) overlooking the sand dunes and the ocean, with the train tracks right below. The worry of oil trains having an accident with a fire roaring up the cliff and destroying all these homes is horrifying! This is a possibility as the train passes right below our homes. There is a curve in the tracks with a slight hill for the train to traverse, with the danger the curve implies.

MAV-01

It is not just the danger from an explosion below my home that worries me, it is bad for the whole county to have it passing through our cities. The oil companies make enough profit with pipes to carry oil, let them continue in that manner.

Sincerely,

Mrs. Virginia Maier
