To Mr. Murry Wilson:

As a new resident at Trilogy Monarch Dunes, I'm very concerned about the long-term effects this project will have on the health of the residents.

After moving here, I was shocked to find out about the air quality issues already existing. The increased quantities of petroleum coke nearby, should this project get approved, is another major health concern, especially in windy areas on the coast, and especially for the large retired population.

Please consider this issue most seriously.

Thank you,
Gizella Miskolczi
