Subject: P66 Expansion Project

Mr. Murry Wilson, SLO County Planning Department

This note is to voice my objection to the proposed P66 Rail Expansion Project.

The proposed rail expansion project at the SMF P66 Refinery should not be allowed to move forward and be built in SLO County. The REIR clearly states that there is no economic advantage to the community in which it is located and in fact, poses a unmitagable risk to the residents and community itself. With only Philips 66 to realize any economic gain from resourcing their crude oil cheaper from the Midwest, the incredible risk put on the residents of all SLO county by allowing one and a half mile long trains, carrying over 2 million gallons of crude oil each, to pass through our community is unacceptable. The inaccurate information outlined in the REIR is a sham and to allow this project to go through does not serve the best interest of the community.

NEM-01

NEM-02

Please reject this proposed P66 expansion.

Thank you
