San Luis Obispo, CA 93408

Dear Mr. Wilson --

I am very concerned about the Phillips 66 Rail Spur Extension proposal.

I'm concerned about the county, and certainly my community being adversely affected by this proposal.

PAS-01

I am afraid our safety is at risk because of the possibility of a train accident involving so much highly flammable cargo. Trains of this size and regularity traveling down Cuesta Grade, into San Luis Obispo, pose an unusually dangerous scenario for us. Dangerous in terms of the risk of explosions, fires and oil spills.

PAS-02

I am concerned about pollution increasing as a result of this project. Pollution in the form of noise from the trains and from the additional processing. Pollution in the form of lighting required at the processing location negatively affecting quality of life nearby.

PAS-03

Certainly, air quality is at risk from the addition emissions from the trains and the processing plant.

PAS-04

Please consider my concerns regarding this issue, and do what you can to prevent this proposal from being accepted.

Sincerely,

Steven Pax

Dear Mr. Wilson

I am very concerned about the Phillips 66 Rail Spur Extension proposal.

PAS-05

I'm concerned about the county, and certainly my community being adversely affected by this proposal.

I am afraid our safety is at risk because of the possibility of a train accident involving so much highly flammable cargo. Trains of this size and regularity traveling down Cuesta Grade, into San Luis Obispo, pose an unusually dangerous scenario for us. Dangerous in terms of the risk of explosions, fires and oil spills.

PAS-06

I am concerned about pollution increasing as a result of this project. Pollution in the form of noise from the trains and from the additional processing. Pollution in the form of lighting required at the processing location negatively affecting quality of life nearby.

PAS-07

Certainly, air quality is at risk from the addition emissions from the trains and the processing plant.

PAS-08

Please consider my concerns regarding this issue, and do what you can to prevent this proposal from being accepted.

Sincerely.

Steven Pax
