Subject: Don't Let crude come by train through San Luis Obispo

Dear San Luis Obispo County Commissioners and Supervisors,

My name is Andrew Pedroni and I am a Cal Poly Environmental engineering student. I do not want Crude by rail coming through San Luis Obispo and getting refined in the county. Since I have been to college I have always lived close to the train tracks. If a train failure happened in San Luis Obispo I would be within harms way no matter where I am. The emissions coming from the tankers will also decrease air quality. I believe that all the impacts of the oil by train will worsen the quality of living in San Luis Obispo. So please don't let them come through my town.

PEA-01
