Subject: Rail Spur at Phillips 66 - Nipomo

Mr. Murry Wilson  
SLO County Planning Department

The Phillips 66 Rail Project will be a SLO County Disaster if it is approved, built out and allowed to operate.

The reasons I am asking you to deny a permit are:

Noise, day and night,

Air pollution from sandtar adding to the PM10 from the dunes, Lights on 30ft poles, Real potential for explosion and fire

I am asking you to deny a permit to allow the building of a rail siding and all that accompany that project.

PEJ-01

Currently, the refinery is provided oil by way of a pipeline. If a larger pipeline is required, I would not object to its being built. However, the rail expansion would affect the quality of life for hundreds of residents as well as severely impact the vacation destination industry.

Thank you,

James and Janet Pelkey  
905 Calle Tio  
Nipomo, CA 93444
