Subject: proposed railspur through San Leandro CA

To the Attention of:
Mr. Murry Wilson
SLO County Planning Department

Dear Mr. Wilson,

I am emailing you to express my strong opposition to the Phillips 66 rail terminal expansion project. My family has resided in San Leandro for 41 years. We live on the periphery of the blast zone. As a retired teacher and grandparent of 4 children enrolled in public and private schools in San Leandro I am very aware that several of our schools are within the blast zone through which oil trains would travel. I am deeply concerned with this entire project.

PRN-01

Our emergency responders are not ready to deal with the potential accidents that these heavily laden trains might encounter.

PRN-02

I would like more information concerning the proposed route of the trains near each of the many watersheds crossed en route to the Santa Maria refinery.

PRN-03

Please examine all aspects of routing these trains through extremely highly populated areas of our state.

PRN-04

Thank you for your consideration. I look forward to your response to my6 concerns.

Yours sincerely,

Nancy Pretto
