Subject: p66 Railspur project

Mr. Murry;

Since the Railspur project was initially proposed, I have made a point of reviewing the EIR and the REIR. My concerns over this project have increased since the REIR has been presented, especially as it relates to the issue of air quality.

Residents of the Mesa are already living in an environment which violates state health standards for particulate matter multiple times per year. Class One Impacts cited in the REIR have increased and proposed mitigation efforts are inadequate and enforcement would be questionable. Until these impacts can be adequately addressed, I strongly urge you to request withdrawal of this plan.

Please understand that my concerns relate to numerous other issues affecting our entire county and the effect on quality of life, safety, and tourism. These are too numerous to elaborate upon in one letter. My hope is that you seriously consider the impact county-wide and again, request withdrawal of this plan.

Sincerely,

Nancy Sweet
