Subject: Nipomo Railspur

Mr. Murry:

As a new resident to SLO Co, my husband and I have been delighted in our choice of location. The idea of the Railspur in Nipomo Mesa will greatly affect our well-being. We live in the Townhouses in Monarch Ridge. The air quality is already a concern but additional air pollution is not acceptable. We would also be greatly affected by the noise created by additional trains. We spend a lot of time in SLO and the rail concern due to the possibility of an accident would affect the well-being of many of our friends, doctors, and French Hospital! My husband is a retired Viet Nam Vet suffering from Agent Orange illnesses. We want to make our last home SLO County and want to the county to keep it safe for us and our heirs!

TIS-01

Please consider safety first in this decision - our way of life depends on your consideration!
