Mr. Murry Wilson

Dear Mr. Wilson,

Please do not allow this risky transport activity through a pristine area such as SLO county. Petroleum products would only be sold overseas to higher bidders than US interests, thereby enriching the already rich oil companies even further. The small number of refinery jobs generated could be offset by green energy jobs taking advantage of the area's unique climate features including sunny days and windy areas.

WOJ-01

Please do not allow dirty activities to pollute SLO county.

Sincerely,

Mr. John Wooldridge
