Subject: Phillips 66 Santa Maria Refinery Rail Project

Mr. Murray Wilson,
Environmental Resource Specialist
County of San Luis Obispo Department of Planning and Building
976 Osos Street, Room 300
San Luis Obispo, CA 93408-2040

Dear Mr. Wilson,

Although I do not live on the Nipomo Mesa, I have a unique perspective on the Phillips 66 Santa Maria Refinery Rail Project. I work at the Refinery, as well as spend a large portion of my earnings at businesses located on the Nipomo Mesa and throughout San Luis Obispo County. My dual perspectives, as a Refinery employee and consumer within SLO County, lead me to the same conclusion. The Refinery is good for all of us. Good for employment, good for the local economy, a responsible neighbor, and a longtime business that needs to keep operating and contributing to SLO County.

The draft EIR spells out the way issues like noise and lights can be managed, and with these issues mitigated, there is no reason to deny the application. Phillip 66 Santa Maria Refinery's request for a rail spur is reasonable and should be approved. I hope you will reach the same conclusion. Thank you for your time and for considering my request.
Sincerely,

Karen Adams
