Subject: Phillips Rail Spur Project

We live on the Nipomo Mesa and have concerns about the Phillips Rail Spur Extension Project. We have lived here for over 4 years and have enjoyed the many wonderful things about the area. We are concerned with the ongoing existing air quality issues of the dust from the Dunes. The Phillips project adds to our concerns regarding the air quality as well as the noise and possible danger of transporting crude oil by railcar. The Tribune newspaper's air quality map frequently indicates unacceptable air quality in Nipomo and Oceano. Recently, additional areas such as Paso Robles, Atascadero, Santa Margarita, and others are now showing yellow dots (moderate air quality which exceeds state law) instead of green dots (good air quality). These issues should concern all citizens of San Luis Obispo County. Please vote against the Phillips Rail Spur Project.
