Subject: PHILLIPS 66 COMPANY - DRC2012-00095

We have several important concerns regarding the proposed rail spur so near residential properties.

First and foremost the recent catastrophic events in Quebec and North Dakota should be enough warning signs - Understand Phillips feel they need this to offset the poor economy. However, what is the cost of human life.

HE-1

As has been pointed out for years there are odors that even now are a major problem. There are a large number of cancer cases in the area.

HE-2

If the spurs are approved, it should be only the new safe tankers.

HE-3

Noise which is a problem now will only increase.

HE-4

We sincerely hope the County will protect us.

Hans & EL-Jay Hansson
