Re: Santa Maria Refinery Rail Project

Mr. Wilson:

I am sending this letter of support for the Santa Maria Refinery Rail Project.

I have been a San Luis Obispo County resident for nearly 20 years. In that time I have never heard any negative or concerning comments regarding the Phillips 66 Santa Maria Refinery. Quite the opposite in fact. The business provides jobs, operates safely, and creates much needed revenue for our County. As I understand it, the refinery has also developed partner relationships with many local non-profits, organizations, and schools in a successful effort to give back to the community.

The subject project will allow the refinery to continue not only the above but also allow it to maintain its ability to operate efficiently and remain a viable entity. I have seen no evidence of negative impacts to follow the planned changes for operating the plant. I therefore submit this letter asking that the project be allowed to move forward.

Sincerely,

Susan K. Lee
