PLANNING & BUILDING

January 24, 2014

Murry Wilson, Environmental Resource Specialist
County of San Luis Obispo
Department of Planning and Building
976 Osos Street, Room 300
San Luis Obispo, CA 93408-2040

Dear Mr. Wilson,

I would like to voice my support for the P66 Santa Maria Refinery train project. I am a Human Resources contractor who has worked at the refinery for over a year. My husband, two daughters and I currently live in Morro Bay. I am currently earning my Master's degree in Human Resources. Phillips 66 has given me the opportunity to achieve working experience while reaching my educational goals. Along with friendly co-workers and an encouraging work atmosphere has really made me feel at home here at the refinery.

People who I have spoken to in the area all have positive comments about the refinery, noting that it has supplied stable jobs for over 55 years, and has actively supported the community. I cannot envision how the area would look like without a large job supplier like P66.

SAM-1

The proposed train rail project will help keep the refinery stay in business and be competitive. The rail project will be out of people's sight. The Refinery also has a good history of managing projects and reducing negative impacts on the community. I am confident that this project would not be any different.

I really hope that the area will continue to develop and flourish for the many years to come. Certifying the EIR is a great first step.

Sincerely,

Megan Sa
