Subject:Re: Phillips 66 Opposition Letter

I would like to bring to your attention the editorial in the SLO Tribune Wednesday, January 22nd "Proposed rail project could bring dangerous oil shipments to county" and in today's paper, Friday, January 24th "New crude-oil train safety rules urged". Both of these express again why the Santa Maria Refinery Rail Spur Project should NOT move forward. Today's "New crude-oil train safety rules urged" state even Canada and U.S. say it is dangerous.

Again, please read both of these and learn why this is a bad idea! Do not put us in danger.

Thank you.

Jan Schmidt
