SUN CO PLAN & BLDG DEPT

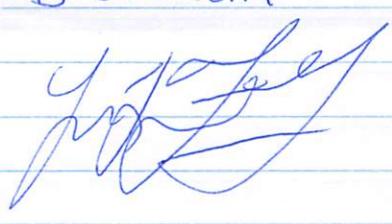

Dear Murry Wilson,

I would like you to strongly consider rejecting the Phillips 66 Santa Maria oil train proposal. Crude oil trains threaten the safety of families along rail routes and create toxic air pollution. Oil ~~trains~~ trains threaten California's water supplies. As you know, California is currently in a drought so it would not be wise to allow oil trains. Please don't allow this injustice to be committed. It is very hazardous to the environment and by extension, hazardous to Californians. Support people's health by rejecting the Phillips 66 Santa Maria oil train proposal

FLY-01

Sincerely, 

Yanira Flores
UCSB Student

Responses to Yanira Flores Comments

FLY-01	This comment does not identify a specific environmental analysis or CEQA issue relative to the EIR and compliance with CEQA. The commenter's concerns about hazards, air pollution and water resources are included in the FEIR for the decision-makers' consideration as part of the County's deliberations on the proposed project.
