Dear Planning Commission:

I am protesting oil trains - even three per day!! There can be no 100% guarantee of safety and anything less is unacceptable. Look what happened in Canada.

Union Pacific stated on the news that no one lives less than 1/2 mile from the tracks. Have they - or you - checked out the SLO bike path, which is literally a stone's throw from my and many others' homes. There is not only the danger of derailment and spills, there is also property value, which will decline.

Please, please, please reject Union Pacific's request to run these trains and keep SLO and all other communities safe for decades to come.

Thank you,

Sally Rogon

Dear Planning Commission:

I am protesting at town - even three years ago!
There can be no 100% guarantee of safety and anything
less is unacceptable. Last week happened in Canada.

Human beings killed on the same day as we did last
time to make from the books. How they - or you -
checked out the 20 mile gate, which is literally a
stone's throw from my and many others' homes.
There is not only the danger of derailment and spills,
there is the property value, which will decline.

Please, please, please report human practices
report to your three towns and keep the and
all other communities safe for decades to come.

Thank you,

Sally Dagan

• oil is the fossilized fuel of yesterday. It is the "corset" of fashion and dangerous in every way.

• Slo Co. is quickly developing a "green city/co" reputation through our economic growth strategies = smart!
We have so many energy alternatives now that oil is not needed.

• As an environmental professional, I will convey that all rail lines travel parallel to all major water conveyance systems (rivers) in our county. And all rail lines travel over all groundwater basins. One spill would have disastrous effects on our shrinking water supply. Diagram below: (Aquifers)

as you can see, attenuating a spill now is near impossible. And there are NO alternative water supply options.

• Travels by/through all major towns/schools. Protect our children - Please Vote **NO** -
BAD for Economics, Enviro, Social Thankyou
