

Small and Medium Business Energy Efficiency Pilot Program

Business Fact Sheet

*Pacific Gas and
Electric Company®*

Background

San Luis Obispo County recently received a grant from Pacific Gas and Electric Company (PG&E) to make utility provided energy efficiency programs more accessible and beneficial to local businesses. We are working with businesses throughout the county to provide expert analysis of your energy use, to look for free or low-cost energy efficiency measures that will reduce your usage and lower your utility bills.

Benefits for Your Business

Building Energy Analysis

- Deep building examination
- Better understand your energy use
- Compare your building to similar building types
- Track and monitor energy use over time

Final Report

- Energy use breakdown and findings
- Identify the top energy-efficiency measures

Recommendations

- List of local contacts
- Connect to existing utility provided programs
- Financing options and information
