Murry:

I hope my suggestions will be helpfull .

I am still recovering from a computer crash and have not yet reinstalled my .pdf converter.

This document is Microsoft Word 6, I lost my new Mirosoft Office 10 in the crash.

If you can not open this I will be sending a second copy in the .pdf format as soon I can get it working.

My name and phone number is on the document so if you would like to converse with me , please do.

I really hope this project will successfully go through soon .

Paul
