Subject: Quarry

To whom it may concern:

I moved to Flying Lady Ranch Road in 2001. I was told that this property used to be a turkey ranch, and the county shut them down because of the dust and lack of ground water to keep the dust down. Now someone wants to open a quarry? 200 double trailers every day by the bridge, the school and Santa Margarita.

If I want to sell my home, I'm sure no one will buy it if there's a quarry near by, it will be worthless.

Oh! And the dynamite. I almost forgot about that. Will this affect my property tax?

I don't think so!
