

We really loved being in your town. It was so quiet. There wasn't a day without birds in the yard or a night without a star-filled dark sky. Our aunt and uncle are so upset. You know how much? Our uncle hasn't been able to sleep! They say they will be there for the granite for 30 years. Well, that's their whole lives, and their lives are going to be ruined. Please don't let them in their town, so they can stay happy there.

Thank you,

Melanie and Madeline Edwards (12 and 8, respectively)
