My concerns are as follows:

The impact of traffic that will affect the crosswalk on Hwy 58 from the elementary school to the park. Having been a crossing guard for the school I believe that increased traffic in that area would make that crosswalk more dangerous for our local school children.

Having lived on Parkhill Road for 14 years, I am also concerned about the water usage that would be generated for the quarry and how it would impact the water table in the Parkhill area.

I also feel the project is not necessary and would be detrimental to our quality of life with the increased traffic, dust, noise, water usage, damage to our roads and unsafe conditions with the use of that particular section of Hwy 58.

Thank you for taking our concerns into consideration for this project.
