Dear SLO Planning Committee,

As homeowners and residents of Santa Margarita, we are deeply concerned about and opposed to the proposed HWY 58.

We are property owners, parents of young children, and lovers of beautiful Santa Margarita. The proposed facility will increase the structure of our town, as the traffic from the trucking will cause debris, noise pollution, and a dangerous increase in children along a stretch of HWY 58 which will be impacted; this project will mean we can no longer walk safely to keep our children inside more often, and we are deeply concerned about water use and the environmental impacts that will have upon our family and community.

Had we known about this quarry, we would have considered purchasing a home elsewhere. For this reason, the effects upon our community's economy. We will go elsewhere to play, walk and shop if it is approved, and in some other place to reside, if the impact is as severe as we suspect.

Thank you for your time and attention.

Sincerely,
Michael and Colleen Gwin
Santa Margarita
