Comment: road would need to be 4 lanes. Bridges widened & reinforced, road need to be built for heavy Traffic. Stop light at entrance to Quarry @ 58  
- noise from traffic, especially through town near school - what about traffic back up when a train goes through - couldn't the traffic go through the other quarry? - Concerned about run-off into river of debris and chemicals - Concerned about dust - concerned about lost animal habitat - Calif. Native Plant Society should do a survey of property and be allowed to remove any plants they feel could be salvaged. Make sure there is a BIKE LANE on new (or old) road. TRUCKS, NARROW ROADS = dead dikes
