Subject: OPPOSE THE SANTA MARGARITA QUARRY!

We oppose allowing another quarry in Santa Margarita for the following reasons:

1. We cannot afford to drain 20,000 gallons of water a day from our water table just FOR PROFIT
2. We cannot afford the damages to the few and small roads we use just FOR PROFIT
3. We cannot accept the damages to the viewshed, land and air that results from the processing just FOR PROFIT
4. We cannot accept the danger 30 more double tractor trailers hauling rock through our small town will bring just FOR PROFIT
4. We cannot accept the damage to the quality of life that will occur if this is allowed just FOR PROFIT

Will this profit making company have a fund setup to provide us with water when we run out?

Will this profit making company build their own roads and repair ours?

Will this profit making company reimburse the residents for damages to the quality of life?

PLEASE OPPOSE PERMITTING THIS QUARRY!

THANK YOU

GARY & MARIE DELLA MAGGIORE
