Subject: sorry I'm late w/ quarry comments

Sorry I am late but I have been dealing with my wife's broken ankle and I just lost track!

Jeff here is some thoughts I have regarding the proposed quarry,

- 1) As an avid fly fisherman and member Trout Unlimited, I would want any impacts on the Salinas River with regards to the Coastal Rainbow Trout and Steelhead Trout addressed before moving forward. Will the average stream flow and water temperature be affected?
- 2) I am all for free enterprise but, this is not Starbuck's we're talking about and with another mining operation a good Tiger Woods drive away (Hanson) and another a short way away off Halcon Rd. (Union) all mining the same material, is there a community need for another mining operation? Those mines have not changed much in the 22 years I have lived here and I doubt they will change much for generations to come. Is there a true need for more decomposed granite and related materials right now? If so, I live on Huer Huero and have the same material on my property!!!

Thanks,
Mike Moreno
