Oster (Las Pilitas Quarry) CUP / Reclamation Plan (DRC2009-00025)

Date: 7-29-2010

Name*: Jack and Georgia Mylan

Affiliation (if any):* _____

Address*: PO Box 11, 6697 Calf Cyn Hwy

City, State, Zip Code*: SANTA MARGARITA, Ca. 93453

Telephone Number*: 805 748 2637

Email*: jackmylan@yahoo.com

I write to oppose any new asphalt production facility at 6660 Calf Canyon Hwy. I have lived at 6697 Calf Canyon Hwy since 1983 and have tolerated the existing Hanson/Kaiser plant all these years including the noise and smell and the more frequent 24 hour operations. The new smelly rubberized asphalt now being produced there that I have to smell almost every morning, is beyond offensive, it is nauseating and I suspect unhealthy not only to humans but also to the abundant wildlife that calls the area home. I could not tolerate a second plant even closer to my home. About one year ago, Mr Oster told me that he intended to strip mine and sell the DG material from the back of his property which I do not object to, however, he made no mention of any asphalt production or concrete plant, this completely changes the situation, the heavy truck traffic and the noise, the dust, and smell of the production facilities would completely change the character of this pristine rural area. If any kind of operation is approved, it must operate only during normal business hours (7am till 5pm) and regulate the dust and noise.

Thank you for your consideration
Jack Mylan
