Address*: P.O. Box 479

City, State, Zip Code*: Santa Margarita, Ca. 93453

Telephone Number*: None

Email*: None

Comment: I believe that dust alone that will be created then the noise of explosions is enough to not allow this operation to take place.

Then besides these things the truck traffic would create a very dangerous situation.

That road was not built to handle that volume of traffic.

I am entirely against allowing this project to take place.

P.S.

On top of the above objections: If they load 200 trucks in a day that will count up to 400 Trucks traveling the road per day, In + out. Besides, the truck coming out will be loaded to the States maximum gross weight of 80,000 pounds that will rapidly tear up the asphalt which the road is paved with.

I think that to happen is an mistake, a big no no no no.
