**Subject:** 58 Quarry

---

Please keep in mind that children frequent the Hwy near the school. Heavy trucks would not be safe. Please keep in mind the several blind spots caused by dips or road conditions. I am concerned that trucks will cut through town on I st. to avoid trains or other traffic. I am concerned about trucks waiting in town for the line in the quarry to go down or waiting for traffic to clear or waiting for the train. I am concerned about excessive road use by heavy vehicle that will degrade road surface conditions.

thank you
