Subject: Fw: Quarry on Hwy 58 near Parkhill Road
From: Jeffrey Oliveira/Planning/COSLO - Thursday 07/22/2010 08:52 AM

Dear Mr Oliveira

As a recreational bicyclist who frequently travels Hwy 58 between the town of Santa Margarita and the turn at Parkhill Road, the thought of an additional 208 daily heavy truck trips due to a granite mine on that section of road is terrifying. Nearly all of the roadway is narrow, curving with poor sight distances and has no shoulder, much less Class II bike lanes.

I request your consideration of these issues as you review the application for this project.

Don Wheeler, Templeton
