WEEKLY REPORT OF ENVIRONMENTAL DOCUMENTS AVAILABLE FOR REVIEW

The purpose of the environmental review process is to provide information about the environmental effects of the actions and decisions made by the County, so that environmental considerations become a part of the decision making process. The following is a summary of the most recent determinations made by the County's Environmental Coordinator. The purpose of this listing is to notify the public of pending actions, which may affect the environment of San Luis Obispo County.

You are invited to participate in this process by reviewing and providing comments on the recommendations of the Environmental Coordinator. Your comments should be in writing and should be delivered to: **Ellen Carroll, Environmental Coordinator, Department of Planning and Building, 976 Osos Street, Room 300, San Luis Obispo, Ca 93408-2040.** For more information about the environmental review process, please write to the address above, call the Department of Planning and Building at (805) 781-5600, or review the environmental determination and other information on our website located at www.sloplanning.org.

Proposed Negative Declarations

A Negative Declaration is issued for projects that would not result in significant effects on the environment. In many cases, the project applicant has added mitigation measures to the project to reduce environmental impacts in order to qualify for a Negative Declaration. If you disagree with the issuance of a proposed Negative Declaration, you may provide comments or file a Request for Review (appeal) of the Negative Declaration. Requests for Review must be filed within two weeks of the date that the proposed Negative Declaration is posted and must address only environmental issues. There is a fee for the request. If you would like more information about this process, please contact the Environmental Coordinator.

For Week of September 8th, 2016

Los Osos Area

A request by San Luis Obispo County Department of Public Works for a Minor Use Permit/ Coastal Development Permit to allow for installation and operation of a groundwater remediation system at the former Los Osos Landfill. The project will include the installation of ten groundwater extraction wells, construction of a 380 square-foot water treatment facility building, and an above-ground air and water line system to collect and treat groundwater. The project will result in the disturbance of approximately 2,000 square feet, all within areas previously disturbed by landfill activities, on an 87 acre parcel. The proposed project is within the Agriculture land use category in the Estero planning area, on the south side of Turri Road, approximately 1.7 miles southeast of South Bay Boulevard, approximately 2 miles east of the community of Los Osos
