If you've ever had to schedule a building inspection, you probably know that the Building Division will give you a window of two-hours to expect your inspector; you simply had to call the inspector the morning of your scheduled inspection to find out his or her schedule. Thanks to the hard work of the Planning and Building Department Information Technology staff working in conjunction with the Building Inspectors, now the information is available on-line through PermitView.

First, from the PermitView home page, click on the permit and parcel research tab.
