

TEMPLETON: STATUS OF EXISTING COMMUNITY FACILITIES

FACILITY STATUS IS ASSESSED ON A SCALE OF VERY COMPLETE (A) TO VERY INCOMPLETE (D)

A	B	C	D
---	---	---	---

COMMUNITY FEATURES	STATUS	NOTES	
Infrastructure	Water Supply	A	Existing demand is less than existing supply
	Water System**	UNKNOWN	Unknown cost of needed improvements
	Sewer System*	A	Low per capita cost of needed improvements
	Storm Drainage*	B	Moderate per capita cost of needed improvements
	Solid Waste	A	Landfill capacity until 2051 (Paso Robles) and 2042 (Chicago Grade)
Transportation	Street Maintenance	A	Pavement Condition Index (PCI) of 70 percent (within the “good roads” category)
	Street & Highway System*	D	Very high per capita cost of needed improvements
	Bike Lanes and Paths	C	The bike system is 20 percent complete
	Transit	B	Two bus routes with two stops
	Park-N-Ride Lots	A	One lot with 65 parking spaces
	Sidewalks	B	The sidewalk system is 33 percent complete
	Streetscape Facilities*	B	Moderate per capita cost of needed improvements
Public Facilities	Public Safety Buildings (Fire)	B	One 5,000-square foot fire station required by 2020
	Public Safety Buildings (Police)	A	Adequate existing facilities
	Community/Neighborhood Parks	A	Greater than County standard
	Trails	B	Two trails
	Libraries	D	No library (nearest is located in Paso Robles)
	Community & Civic Facilities	A	One community/women’s center
	Public Services Buildings	A	Many Community Health Centers
	Schools ¹	D	At or near capacity

¹ Based on San Luis Obispo County 2008 Annual Summary Report. 2012 information being prepared by the school district.

* It is difficult to measure existing conditions quantitatively for these facilities. In these cases, “cost per capita for near-term improvements” is used to determine the facility’s “status.” The per capita costs for these facilities range from “low” being less than \$180 per capita and “very high” being greater than \$939 per capita. It should be noted that cost per capita is used for comparative purposes only and does not represent any proposed costs or fees to individuals or households.

** The existing conditions of these facilities cannot be measured because improvement costs or needed improvements are not identified.
