

AMENDED REPORT

09/18/2008

Orval Osborne
Creek Environmental Laboratories
141 Suburban Road Suite C5
San Luis Obispo, CA 93401

Dear Orval Osborne,

Once again, we would like to thank you for selecting BSK Analytical Laboratories for your analytical testing needs. Amendments have been made to the original BSK Analytical report identified above. The pertinent amended pages are enclosed, along with a copy of the original Chain of Custody for this submission. Listed below are the amendments that have been made:

The original Sample Integrity Sheet has been amended to reflect more accurate sample receipt condition. The amended page should be inserted into the original report.

If additional clarification of any information is required, please contact your Client Services Representative, Dan Larkin, at (800) 877-8310 or (559) 497-2888.

AMENDED Pre Log #

Section 1- Sampled Same Day
 85 Sample Transport: Walk In SJVC BSK-Courier Transported In: Ice Chest Box Hand
 Has chilling process begun? Y N Samples Received: Chilled to Touch / Ambient / On Ice

Section 2- Sampled Previously
 Sample Transport: CAO UPS SJVC Walk-In BSK-Courier GSO Fed Exp. Other: _____
 No. Coolers/Ice Chests: _____ Temperature(s): 5'
 Was Temperature In Range (Y) N Received On Ice: Wet Blue
 Describe type of packing materials: Bubble Wrap Foam Packing Peanuts Paper Other: _____
 Were ice chest custody seals present? Y (N) Intact: Y (N)

Section 3- COC Info.	Completed		Info From Container	Completed		Info From Container
	Yes	No		Yes	No	
Was COC Received	—		Analysis Requested	—		
Date Sampled	—		Any hold times less than 72hr		—	
Time Sampled	—		Client Name	—		
Sample ID	—		Address	—		
Special Storage/Handling Ins.		—	Telephone #	—		

Section 4- Bottles / Analysis	Yes	No	N/A	Comment
Did all bottles arrive unbroken and intact?:	—			
Were bottle custody seals present?				
Were bottle custody seals intact?			—	✓
Did all bottle labels agree with COC?:	—	9/11/08		
Were correct containers used for the tests requested?:	—			
Were correct preservations used for the tests requested?:	—	9/11/08		
Was a sufficient amount of sample sent for tests indicated?:	—			
Were bubbles present in VOA Vials?: (Volatile Methods Only)			—	
Were Ascorbic Acid Bottles received with the VOAs			—	

Section 5- Comments / Discrepancies
 Sample(s) Split/Preserve: Yes (No) Container: _____ Preservation: _____ Init.: _____
 Was Client Service Rep. notified of discrepancies: Yes No (N/A) CSR: _____ Notified By: _____
 Explanations / Comments

TECHNICAL MEMO

September 18, 2008

Additional Information: BSK Analytical Report No. 2008072203

In regards to the two questions posed regarding sample preservation and sample container integrity the following information is hereby submitted:

Page 1 of 2 of the Sample Integrity Form submitted in the above referenced BSK report contained information on two line items that were inaccurately expressed.

In Section 4 of this document the following amendments have been made:

"Were bottle custody seals intact?" The response should have been recorded as "N/A" (not applicable) instead of "No." Sample bottle "Custody Seals" were not used on this project, thus the correct response should have been "N/A." This recording has been amended.

"Were correct preservations used for the tests requested?" The response should have been recorded as "Yes." Our Sample Receiving personnel inadvertently recorded "No" to indicate "no preservation was needed." The more correct response should have been "Yes," indicating that the correct preservation was used, since it was unpreserved as referenced by EPA 317.0. This recording has been amended.

The environmental sample submitted for Perchlorate analysis by Creek Analytical (BSK Report No. 2008072203) was received intact, in good condition, and in the appropriate sample container as stipulated in EPA Method 317.0.

I hope this additional information proves beneficial. Should any additional information be required, please contact BSK Analytical Labs at your convenience.

Best Regards,

Glen Brown
