ENVIRONMENTAL DESCRIPTION FORM

San Luis Obispo County Department of Planning and Building

File No _____

The California Environmental Quality Act (CEQA) requires all state and local agencies to consider and mitigate environmental impacts for their own actions and when permitting private projects. The Act also requires that an environmental impact report (EIR) be prepared for all actions that may significantly affect the quality of the environment. The information you provide on this form will help the Department of Planning and Building determine whether or not your project will significantly affect the quality of the environment.

To ensure that your environmental review is completed as quickly as possible, please remember to:

- Answer **ALL** of the questions as accurately and completely as possible.
- Include any additional information or explanations where you believe it would be helpful or where required. Include additional pages if needed.
- If you are requesting a land division or a re-zoning, be sure to include complete information about future development that may result from the proposed land division or rezoning.
- Include references to any reports or studies you are aware of that might be relevant to the questions asked or the answers you provide.

Should a determination be made that the information is inaccurate or insufficient, you will be required to submit additional information upon request.

Physical Site Characteristic Information

Your site plan will also need to show the information requested here:

- Describe the topography of the site: see Soles Surveying, Phase V Site Exhibit, Attachment 1 to Project Description. Exact slopes to be determined for the grading permit applications
Level to gently rolling, 0-10% slopes: _____ 35 _____ % of total disturbance
Moderate slopes of 10-30%: _____ 35 _____ % of total disturbance
Steep slopes over 30%: _____ 30 _____ % of total disturbance
- Are there any springs, streams, lakes or marshes on or near the site? Yes No
If yes, please describe: Pismo Creek
- Are there any flooding problems on the site or in the surrounding area? Yes No
If yes, please describe: _____
- Has a drainage plan been prepared? Yes No
If yes, please include with application.
- Has there been any grading or earthwork on the project site? Yes No
If yes, please explain: Apprvd. grading & construction associated w/ existing oil field operations
- Has a grading plan been prepared? Yes No
If yes, please include with application. Specific grading plans will be prepared for grading permit submissions before grading
- Are there any sewer ponds/waste disposal sites on/adjacent to the project? Yes No
- Is a railroad or highway within 300 feet of your project site? Yes No
- Can the proposed project be seen from surrounding public roads? Yes No
If yes, please list: Price Canyon Road, Ormonde Road

Water Supply Information Existing – N/A

1. What type of water supply is proposed? NA
 Individual well Shared well Community water system
2. What is the proposed use of the water?
 Residential Agricultural - Explain _____
 Commercial/Office - Explain _____
 Industrial – Explain Feedwater for steam generatr & other oilfield uses (dust control)
3. What is the expected daily water demand associated with the project? No groundwater use
4. How many service connections will be required? NA
5. Do operable water facilities exist on the site?
 Yes No, If yes, describe: Onsite water wells, approved Water Reclamation Facility
6. Has there been a sustained yield test on proposed or existing wells? NA
 Yes No If yes, please attach.
7. Does water meet the Health Agency's quality requirements?
Bacteriological? Yes No
Chemical? Yes No
Physical Yes No
Water analysis report submitted? Yes No
8. Please check if any of the following have been completed on the subject property and/or submitted to County Environmental Health.
 Well Driller's Letter Water Quality Analysis OK or Problems
 Will Serve Letter Pump Test _____ Hours _____ G.P.M.
 Surrounding Well Logs Hydrologic Study Other _____

Please attach any letters or documents to verify that water is available for the proposed project.

Sewage Disposal Information Existing – N/A

If an on-site (individual) subsurface sewage disposal system will be used:

1. Has an engineered percolation test been accomplished?
 Yes No If yes, please attach a copy. NA
2. What is the distance from proposed leach field to any neighboring water wells? _____ feet
3. Will subsurface drainage result in the possibility of effluent reappearing in surface water or on adjacent lands, due to steep slopes, impervious soil layers or other existing conditions?
 Yes No NA
4. Has a piezometer test been completed?
 Yes No NA
5. Will a Waste Discharge Permit from the Regional Water Quality Control Board be required?
 Yes No (a waste discharge permit is typically needed when you exceed 2,500 gallons per day)

If a community sewage disposal system is to be used:

1. Is this project to be connected to an existing sewer line? Yes No
Distance to nearest sewer line: _____ Location of connection: _____
2. What is the amount of proposed flow? _____ G.P.D.
3. Does the existing collection treatment and disposal system have adequate additional capacity to accept the proposed flow? Yes No

Solid Waste Information

1. What type of solid waste will be generated by the project?
 Domestic Industrial Agricultural Other, explain? Non-hazardous well cuttings
2. Name of Solid Waste Disposal Company: onsite recycling/disposal or a Class II non-haz. landfill
3. Where is the waste disposal storage in relation to buildings? Storage bin(s) on site.
4. Does your project design include an area for collecting recyclable materials and/or composting materials? Yes No

Community Service Information

1. Name of School District: Santa Lucia Unified School District
2. Location of nearest police station: County Sheriff (Oceano) & Pismo Beach Police (Bello St.)
3. Location of nearest fire station: CDF/County Fire Dept. (County Airport)

If yes, please include two copies of the report with the application. Refer to Section 5.6.1 of the PXP Phase IV Development Plan EIR (2004)

Commercial/Industrial Project Information

Only complete this section if you are proposing a commercial or industrial project or zoning change.

1. Days of Operation: 365 days per year Hours of Operation: 24 hr/day
2. How many people will this project employ? see Sections 3.1, 3.2 & 3.3 of the Project Description
3. Will employees work in shifts? Yes No
If yes, please identify the shift times and number of employees for each shift see Sections 3.1, 3.2 & 3.3 of the Project Description
4. Will this project produce any emissions (i.e., gasses, smoke, dust, odors, fumes, vapors)?
 Yes No If yes, please explain: Dust from grading, additional ROC emissions from increased production; combustion emissions from Steam Generators (evaluated previously)
5. Will this project increase the noise level in the immediate vicinity? Yes No
If yes, please explain: temporary noise from drilling & grading, no noise increase from the normal operations (see Section 4.9 of the Project Description
(If loud equipment is proposed, please submit manufacturers estimate on noise output.)
6. What type of industrial waste materials will result from the project? Explain in detail: No change in types of waste materials w/ Phase V, see also Sec. 4.6 in Project Description.
7. Will hazardous products be used or stored on-site? Yes No
If yes, please describe in detail: The same as occurs now, no change
8. Has a traffic study been prepared? Yes No If yes, please attach a copy. See previous study - Associated Transportation Engineers, December 2001. Traffic and Circulation Study. Stocker Resources Arroyo Grande Oil field Phase IV Project.

9. Please estimate the number of employees, customers and other project-related traffic trips to or from the project: please see Sections 3.1, 3.2 & 3.3 of the Project Description
10. Are you proposing any special measures (carpooling, public transit, telecommuting) to reduce automobile trips by employees Yes No
If yes, please specify what you are proposing: Encouraging employees and contractors to carpool.
Please see Section 4.11 of the Project Description
11. Are you aware of any potentially problematic roadway conditions that may exist or result from the proposed project, such as poor sight distance at access points, connecting with the public road?
 Yes No If yes, please describe: _____

Agricultural Information

Only complete this section if your site is: 1) Within the Agricultural land use category, or 2) currently in agricultural production.

1. Is the site currently in Agricultural Preserve (Williamson Act)? Yes No
2. If yes, is the site currently under land conservation contract? Yes No
3. If your land is currently vacant or in agricultural production, are there any restrictions on the crop productivity of the land? That is, are there any reasons (i.e., poor soil, steep slopes) the land cannot support a profitable agricultural crop? Please explain in detail NA

Special Project Information

1. Describe any amenities included in the project, such as park areas, open spaces, common recreation facilities, etc.(these also need to be shown on your site plan) NA
2. Will the development occur in phases? Yes No
If yes describe: approximately 350 wells over 10-yr period
3. Do you have any plans for future additions, expansion or further activity related to or connected with this proposal? Yes No If yes, explain: Unknown at this time
4. Are there any proposed or existing deed restrictions? Yes No
If yes, please describe: _____

Energy Conservation Information

1. Describe any special energy conservation measures or building materials that will be incorporated into your project *: The project is energy-producing (oil and gas). The oilfield has a cogeneration facility that reduces use of commercial electricity.

*The county's Building Energy Efficient Structures (BEES) program can reduce your construction permit fees. Your building must exceed the California State Energy Standards (Title 24) in order to qualify for this program. If you are interested in more information, please contact the Building Services Division of the Department of Planning and Building at (805) 781-5600.

Environmental Information

1. List any mitigation measures that you propose to lessen the impacts associated with your project: Multiple-well drill pads; directional drilling to reduce new grading, separation of solids from slurry for the drill muds and cuttings to minimize off-site disposal and transportation; use of non-hazardous solids from the muds and cutting for berms and other onsite uses

2. Are you aware of any unique, rare or endangered species (vegetation or wildlife) associated with the project site? Yes No
If yes, please list: See Section 5.5 of the 2004 Phase IV EIR
3. Are you aware of any previous environmental determinations for all or portions of this property? Yes No
If yes, please describe and provide "ED" number(s): ED-90-569

Other Related Permits

1. List all permits, licenses or government approvals that will be required for your project (federal, state and local): CA Dept. of Conservation/Division of Oil, Gas & Geothermal Resources; SLO APCD; RWQCB, CDFG, ACOE, NMFS, USFWS (related to vehicular bridge over Pismo Creek)

(If you are unsure if additional permits are required from other agencies, please ask a member of the Planning Department staff currently assigned in either Current Planning or the Environmental Division.)

INFORMATION DISCLOSURE FORM

San Luis Obispo County Department of Planning and Building

File No _____

TIME LIMITS FOR PROCESSING AND PUBLIC NOTICE DISTRIBUTION REQUIREMENTS - California state law (California Government Code Section 65941.5) requires that the county provide the following information to applicants, when a permit application is filed:

Not later than 30 days after a land use or land division application is received, the county must notify the project applicant or designated representative in writing either that the application is complete, or that items are necessary to complete the application. If you are not notified in writing, the application is considered complete. Any land use or land division application must be approved or denied within three months of adoption of the Negative Declaration or determination that the project is exempt, or within six months of the certification of an Environmental Impact Report. The County of San Luis Obispo processes the land use application and the environmental review concurrently, so these decisions are made simultaneously. (Government Code Sections 65943 and 65950, et seq.)

A project applicant may make a written request to the county to receive notice of any proposal to adopt or amend the general plan and the land use, real property division, building and construction, road name and addressing, and growth management ordinances which might reasonably be expected to affect that applicant's project. The county offers a subscription service for notification of either: (1) all applications received by the county, or (2) Planning Commission agendas. The cost for each of these services is established by the county fee ordinance. (Government Code Sections 65945, 65945.3 and 65945.5)

When a property was created through recordation of a final or parcel map, and it is within five years of recordation, the county cannot withhold or condition the issuance of building permits for residential units based on conformance with conditions that could have been imposed as conditions of the tentative map, except where: (1) A failure to do so would place subdivision residents or residents in the immediate area in a condition perilous to health, safety or both; or (2) The condition is required in order to comply with state or federal law. (Government Code Section 65961)

Copies of Government Code Sections are available at the County of San Luis Obispo Law Library, County Government Center, San Luis Obispo, California.

RIGHT TO FARM DISCLOSURE - The County of San Luis Obispo recognizes the statewide policy to protect and encourage Agriculture. Sections 3482.5 and 3482.6 of the California Civil Code and Chapter 5.16. of the San Luis Obispo County Code protect certain, pre-existing agricultural production and processing operations ("agricultural operation") from nuisance claims. If your property is near a protected agricultural operation, you may be subject to certain inconveniences and/or discomforts which are protected by law. In order for the agricultural operation to be protected, the following requirements of Civil Code Sections 3482.5 and 3482.6 must be satisfied:

(1) The agricultural operation must be conducted or maintained for commercial purposes; (2) The agricultural operation must be conducted or maintained in a manner consistent with proper and accepted customs and standards as established and followed by similar agricultural operations in the same locality; (3) The agricultural operation predated the affected use(s) on your property; (4) The agricultural operation has been in existence for more than three years; and (5) The agricultural operation was not a nuisance at the time it began.

If your property is near an agricultural operation in the unincorporated area of the County which satisfies the above requirements, you may at times be subject to one or more inconveniences and/or discomfort arising from that operation. Such inconveniences may include (depending upon the type of agricultural operation protected), but are not necessarily limited to, the following: noise, odors, fumes, dust, legal pesticide use, fertilizers, smoke, insects, farm personnel and truck traffic, visual impacts, night time lighting, operation of machinery and the storage, warehousing and processing of agricultural products or other inconveniences or discomforts associated with the protected agricultural operations. For additional information pertaining to this disclosure and the Right to Farm Ordinance, or concerns with an agricultural operation, please contact the San Luis Obispo County Agricultural Commissioner's Office.

HAZARDOUS WASTE AND SUBSTANCE SITES AND LANDFILL DISCLOSURE - Please verify whether your project is on the Known Hazardous Waste and Substances Sites List pursuant to AB 3750 and if you are within ½ mile of certain landfills (see back of sheet).

PLEASE COMPLETE AND SIGN BELOW

I acknowledge that I have read and understand the information and policy and detailed above: (1) Time Limits for processing and (2) Public Notice Distribution requirements and (3) the Right to Farm Disclosure.

AND

I acknowledge that I have reviewed the list of Identified Hazardous Waste and Substances Sites List and the Landfill Disclosure on the back of this form and find the following: (1) The site is not shown on the list of Identified Hazardous Waste and Substances Site; (2) The site is not shown on the list dated April 1998, or any later list published by the State Office of Planning and Research and (3) I have read the disclosure statement on landfill operations.
