**FOR IMMEDIATE RELEASE**

**LAKE NACIMIENTO SEWER INTERCEPTOR BREACH, SAN LUIS OBISPO, CA – April 1, 2011** – The County of San Luis Obispo Public Works Department reports that the CSA 7A Wastewater System at Oak Shore, Lake Nacimiento has returned to normal operations. The sewer line breach has been resolved and no lake water is entering the system. Subsequent Water Quality testing has indicated that lake levels are normal and safe for public use.

The County Department of Public Health and the State Department of Health have rescinded orders issued on Tuesday, March 29, 2011, to avoid all domestic use of water. With that action, all restrictions will be removed and the public may use the lake for recreation and as a potable water source.

Questions on this issue can be directed to the San Luis Obispo County Public Works Department at (805) 781-5252, or John Diodati, Public Works Administrator at (805) 788-2832 or [jgdiodati@co.slo.ca.us](mailto:jgdiodati@co.slo.ca.us).
