

MONARCH GROVE HOMEOWNERS ASSOCIATION
P.O. Box 6818, Los Osos, CA. 93412.

August 14, 2007

Honorable Supervisors of San Luis Obispo County,

The Monarch Grove Homeowners Association board of directors supports the County staff recommendation that the Monarch Grove neighborhood **not** participate in the proposition 218 vote for a sewer and wastewater treatment plant for the Prohibition Zone in Los Osos scheduled for Fall 2007.

While we do believe that ultimately the Monarch Grove neighborhood would like to tie into the community system, we agree with county staff that because Monarch Grove already has a functioning sewer and wastewater treatment plant and because of the current lack of precision in cost estimates for the community system, it would be more appropriate for us to make that decision later. County staff indicated that our decision would be needed by later 2008 or early 2009.

We also believe that this will provide a less muddied 218 vote for those who are in the Prohibition Zone who do not already have a treatment plant as we do.

Respectfully,

George Wright

Carroll Leslie
