

LOS OSOS WASTEWATER PROJECT TECHNICAL ADVISORY COMMITTEE

San Luis Obispo County Department of Public Works

“Informing, and seeking the input from the community on matters regarding the Project alternatives”
TAC Bylaws Areas of Responsibility

TAC Community Meeting **Monday, April 7, 2008 – 7:00 PM** **South Bay Community Center – 2180 Palisades Ave. – Los Osos**

Public Input Slips

If you have a question or wish to speak either on a specific item on the agenda or in general comment, please fill out a slip and hand it to a member of the Project Team staff.

For agenda items, only comments specifically relating to that item will be allowed and written comments will be handled first.

In general comment, please make sure that your questions or comments are on topics within the subject matter of the TAC.

Written questions and comments will be considered during our general discussions. Questions to the Project Team will be responded to as time permits.

Agenda

TAC Business

Roll Call and Opening Comments from the Chairman

Item 1: Accept Minutes from previous meetings - March 3, 2008

Item 2: Discussion of the Project Team’s Technical Memorandum titled “Out of Town Conveyance”

Item 3: Discussion of the Project Team’s Technical Memorandum titled “Imported Water”

Item 4: Discussion of the Project Team’s Technical Memorandum titled “Facultative Ponds”

Item 5: General Public Comment

Adjourn meeting at 9:30 PM

TAC meeting must be a place for open dialog to discuss and provide feedback to the Project Team on matters brought before us pertaining to the wastewater project. We agree and acknowledge that this process demands time and patience and the engagement of the community.

As volunteers working on behalf of the entire community, we will develop our responses based on clear, objective, and accurate information. We encourage input and participation from the community and have the following meeting expectations:

- *We expect all participants to avoid creating opportunities for harassment, intimidation and conflict. Constructive dialog is not possible with interruptions and distractions.*
- *We will listen and ask for the clarification and accuracy of statements.*
- *We will respond as appropriate so that the flow of information is constructive and informative.*
- *We will present the agenda items and commit to staying on topic so that our meetings are productive and provide information for consideration.*
