

Condition 20	Erosion Control-Landscaping																
<p>Prior to commencement of grading activities for each facility, vegetation/landscaping shall be provided on the graded cut and fill slopes to reduce the long-term potential for soil erosion or loss of topsoil to the satisfaction of the Planning Director.</p>																	
<p>Evidence of compliance:</p> <p>Minimal grading will be required at the nine (9) pump station sites and the Mid Town generator building. Two (2) of the pump station sites will be constructed within paved streets (Mountain View and Baywood). However, in order to minimize the long term potential for erosion or loss of topsoil at the sites after construction is complete, the seven pump station sites and Mid Town generator site will be landscaped per plans prepared by licensed landscape architects and included in the CDM set of pump station plans. For reference, and verification of condition compliance, <u>copies of stamped and signed plans prepared by licensed landscape architects</u> are attached. Specifically the following sheets show information relative to landscape design:</p> <table data-bbox="341 850 958 1123"> <tr> <td>East Ysabel Pump Station</td> <td>PS-L-104</td> </tr> <tr> <td>East Paso Pump Station</td> <td>PS-L-105</td> </tr> <tr> <td>West Paso Pump Station</td> <td>PS-L-106</td> </tr> <tr> <td>Lupine Pump Station</td> <td>PS-L-203</td> </tr> <tr> <td>Solano Pump Station</td> <td>PS-L-204</td> </tr> <tr> <td>Mid Town Pump Station</td> <td>PS-L-205</td> </tr> <tr> <td>Mid Town Generator</td> <td>PS-L-208</td> </tr> <tr> <td>Sunny Oaks Pump Station</td> <td>PS-L-302</td> </tr> </table> <p>Note: Because the wastewater treatment facility design has not been completed, evidence of compliance will be submitted under separate cover.</p>		East Ysabel Pump Station	PS-L-104	East Paso Pump Station	PS-L-105	West Paso Pump Station	PS-L-106	Lupine Pump Station	PS-L-203	Solano Pump Station	PS-L-204	Mid Town Pump Station	PS-L-205	Mid Town Generator	PS-L-208	Sunny Oaks Pump Station	PS-L-302
