

Condition 29**Cultural Resources-Treatment Plan**

A Treatment Plan shall be prepared that would detail the extensive scope of the proposed project, establish site types with corresponding levels of effort for mitigation, and detail data recovery and monitoring plans for the extent of the proposed project. The former Treatment Plan (Far Western 2001) prepared for the wastewater project shall be adapted and modified where appropriate for the current project.

Evidence of compliance:

The Treatment Plan was updated and used in consultation with the State Historic Preservation Officer (March 2010). Please refer to attached cover page from the Treatment Plan. Complete copies of the Treatment Plan are on file in the Public Works Department and the Planning Department.

Condition Satisfied
