

Condition 72	Archaeological Excavations
<p>For sites with known human remains or which have a potential for human remains, pre-construction excavations shall take place within the direct impact areas to insure that no human remains are present.</p>	
<p>Evidence of compliance: This measure is detailed in the approved Treatment Plan (March 2010). A discussion of sites known to contain Native American remains and the project's avoidance of these sites can be found on page 37.</p>	

Condition Satisfied
