Subject: Initiation of Development for Coastal Development Permit
#A-SLO-09-055/069, Los Osos Wastewater Project

Dear Mr. Carl:

This letter is to confirm that San Luis Obispo County has initiated development on the Los Osos Wastewater Project (LOWWP) pursuant to the above-referenced Coastal Development Permit (CDP). As documented by the attached photos, substantial site work has begun on two components of the project. The restoration of the Midtown site, as required by special condition 3 has been initiated by R. Burke Construction in accordance with the Plans and Specifications for the "Midtown Site Restoration Project" (Contract 300449.08.03). Work has also been initiated on low impact development techniques and water quality protection systems as required by special condition 1 in accordance with the Plans and Specifications for the "Los Osos Wastewater Project Collection System Areas A & D" (Contract No. 300448.08.01.AD – AD Reference Sheet D-G-007 of the Drawings and Appendix A of the Specifications).

I want to also take the opportunity to thank you and your staff for all of your efforts on the project over the past several years. We look forward to continue our positive working relationship as this much needed project continues through to construction completion and operation.

Sincerely,

PAAVO OGREN
Director of Public Works
