VARIANCE DISCUSSION

Total Installment Billings to Participants (Table 2):

Total billings to participating agencies increased from the prior year by \$5,792,877 or 37.2%. The increase is explained below within the budget categories.

Billable Routine Operations and Maintenance and Variable Energy (Table 1):

Routine Operations and Maintenance billings are \$216,725 higher than the prior year budget. This variance is relatively flat compared to prior year, some of the routine O&M elements have decreased but were offset by increases in other elements. Notable budget decreases were recognized in the Quagga Mussel program (\$42,073), Engineering labor costs (\$79,289), the budget estimate for General Admin and Accounting labor hours (\$63,144) ISF equipment contribution (\$150,313), and a decrease in San Antonio Spillway Rehab (\$19,308).Notable budget increases are recognized under Master Water Contract with Monterey County \$182,353, CWOH \$22,169, Naci Water Sales Program \$197,677 and O&M efforts for the Naci units (General through T-11) \$166,736.

While the Variable Energy budget is not included in the installment billings to Participants, we include the budget/estimate in the table for reference. Budgetary/estimated amounts are lower by \$1.445M or (38%) than the prior year budget based upon requested deliveries to the participating agencies and related energy pumping costs and the water line being down due to storm damage.

Billable Non-Routine Operations and Maintenance (Tables 1 and 3):

Non-Routine billings are \$15,776 higher than the prior year budget due to changes in the following projects, based on 5-year Capital Improvement Plan reviewed with the Technical Support Group at both the November and December monthly meetings.

| TABLE 3 | 2023-24 Budget | 2024-25 Budget | Dollar Change |

c.f.: carry forward remaining budget from prior year to continue the project

Billable Capital Outlay and Reserves (Tables 1 and 4):

Capital and Reserve billings budget increased by \$100,000 from the prior year budget, based on discussions with the Technical Support Group. This was primarily due to the addition of the unanticipated non-routine capital projects budget.

Capital Outlays increased by \$8.5M due to budgeting for the Permanent Repair of the Naci Pipeline at \$8,292,000, Intake Pump #4 rebuild at \$156,600 and SYPS Isolation valve at \$62,640.

| TABLE 4 | 2023-24 Budget | 2024-25 Budget | Dollar Change |
|---|-------------------|-------------------|---------------|
| Billable Capital Outlay UNANTICIPATED NON-ROUTINE CAPITAL | | | |
| PROJECTS | \$ 100,000 | \$ 200,000 | \$ 100,000 |

| Subtotal | \$590,000 | \$9,201,240 | \$8,611,240 |

Not shown above is \$200,000 of capital outlay, funded from reserves, which is budgeted annually as a contingency should a mid-year emergency expenditure become necessary.

Billable Debt Service (Table 1):

Debt service payments reflect the payment schedule from the 2018 bond refinancing. Billable debt service is essentially flat from the prior fiscal year.
